BMW 328 Roadster Convertible—part of the arcurio® Collection of Oldtimers from the 30ies of the last century. This arcurio® Oldtimer Model is manufactured according to the company's own plans and under licence from BMW Tradition, entirely true to its original.

On June 14, 1936, when this BMW Roadster was first presented to the public at the famous German race track, the "Nürburgring", it was evident immediately that this sports-car was setting important new standards in many ways. The elegant and streamlined car body, a design far ahead of its time, was thoroughly liked by the audience at the legendary race track in Germany's Eifel region. With only 80 horsepower under the hood, this sports car left the competition "in the dust" due to its aerodynamic body features and road handling.

The 6-cylinder engine of 2,000 cubic centimetres generated 80 horsepower at 3,400 RPM.

Composition of Materials used

There are 4 different types of wood used in the model: Alder, Maple, Birch and Beech. The wood itself is natural and not painted or otherwise chemically treated. The various parts of the model are assembled with great care and perfection in order to achieve a good matching of the wood-grains. This high quality arcurio® model is made of 104 hand-assembled parts.

Particular Features of the Model

This superb model is produced in the very limited edition. These Oldtimers are handmade out of premium European wood. The series of this model is of very limited dimension. Each Roadster is crafted individually and therefore carries a brass plate with its engraved production number.

- Detailed 6-Cylinder engine under a hood to be opened
- Removable folding top
- Folding and padded seats
- Minuscule detailed dashboard
- Special mechanism for front wheel steering
- "Butterfly-fixings" on all hub caps
- Folding top with worked-in window
- Spare wheel on rear trunk
- Side doors to be opened.

Size

The model is 37 cm long, 14 cm high and 15 cm wide; it is produced at a scale of 1:12 and is supplied in a sumptuous, wooden engraved box, serving as a garage.
